1b	Implement review indicators in the M&E Framework to ensure that activities in individual GEO Tasks and Sub-Tasks meet the applicable scientific and technological standards.

EGIDA Stakeholder Network

A first workshop with the (extended) Stakeholder Network could take place around May 2011

Focus on

- Information of Stakeholder Network about EGIDA
- Feedback on STC Road Map and EGIDA Work Program from Stakeholders
- Advisory Board should attend

We will be looking for a venue in the next months

Could be co-located with EGIDA Project and/or Advisory Board Meetings

EGIDA Stakeholder Network

Michael Nyenhuis Point of Contact to the EUGENE project.

EUGENE is establishing networks of European organisations having a stake in Earth observations related to GEOSS.

Focus lies on Water, Climate and Disasters.

May be useful for extending the EGIDA Stakeholder Network.
